

INFORMATION ABOUT THE STAY INFORMED APP

Hello,

we would like to inform you, that in the future we will be contacting you via a modern, up-to-date app regarding news and appointments from our organisation.

This allows us to make an important contribution to protecting the environment, as we save enormous amounts of paper and printer cartridges.

However, the best thing is: Thanks to better organisation, we now have more time for the things that really matter.

IMPORTANT: The app is not intended to replace personal conversations, so please don't hesitate to contact us as usual. We are of course still happy to talk to you!

We have decided to use the Stay Informed App from Stay Informed GmbH, based in Freiburg im Breisgau.

YOUR ADVANTAGES

- You receive important information and appointments directly on your smartphone.
- You can fill out digital response forms directly on your smartphone and send them back to us.
- You can easily transfer appointments from the app to your personal smartphone calendar.
- You can enter absences via the app (for the solutions "Kids", "Schools" and "Care").
- The app is GDPR-compliant, ad-free and free of charge for users.
- Unlike other commonly used chat programs, your messages and data are not visible to other users.
- Your data will not be commercially analysed, sold or passed on to unauthorised third parties.
- Users who do not own a smartphone can, without additional effort, access all information and appointments via the browser-based web app.

AND THIS IS HOW IT WORKS (STAY INFORMED APP)

1

Open the Google Play Store (Android phones) or the App Store (iPhones) on your smartphone.

2

In the search field, enter: Stay Informed App. Alternatively, scan the QR code:

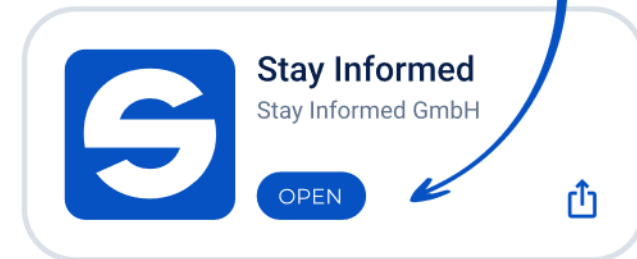

3

Tap on

4

After the installation, tap on

5

Tap on
